Metering User Manual

Accessing Zums site

Type in the URL on the address bar and enter. eg;

https://172.16.34.8/zetdc/pf_energy_login/userLogin/login

Logging in

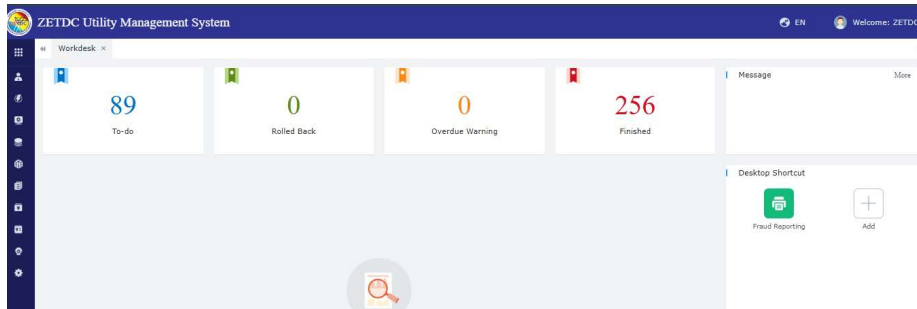

After typing in the URL you will be ushered to the log in page, fill in your log in details eg ZE12345 and password *****

Click on log in button

Landing Page

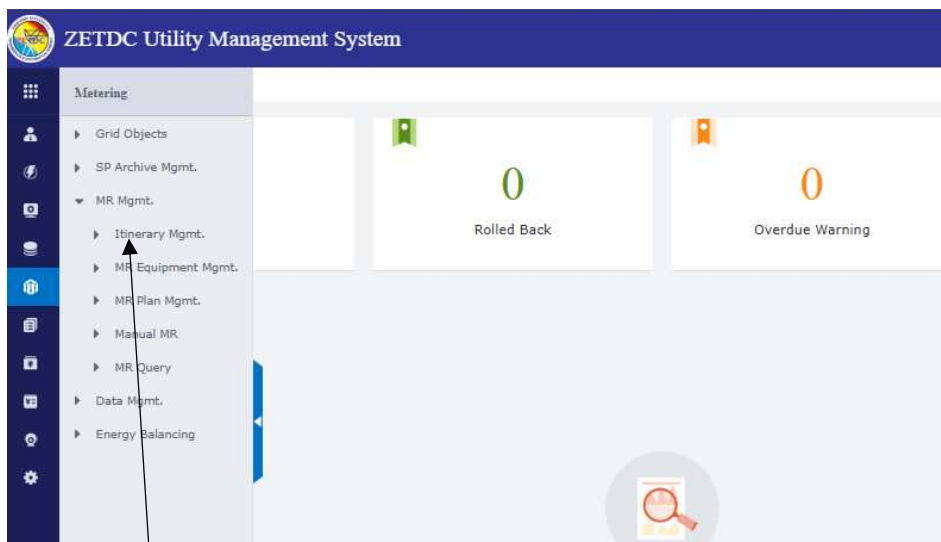

After logging in, landing page will be shown as below

Route creation

Move your cursor and hover on the side bar for the Zums menu

Select Metering

Click on itinerary management

Click on route maintenance

To create new route , Click add

Workdesk x Route Maintenance x

Creating an Itinerary

To create an itinerary click Metering,

Click MR mgmt.

Click itinerary maintenance

Itinerary maintenance window will be shown.

Click add button

Select The Organization and drill down to MRC Created under the route , eg Seke

A screenshot of the 'Itinerary Maintenance' form. It features a header bar with the title 'Itinerary Maintenance'. Below the header, there are input fields for 'Organization', 'Itinerary No.', 'Itinerary Attribute', 'Itinerary Name', 'MR Mode', and 'Route No.'. There are 'Save' and 'Clear' buttons. Below these fields, there are tabs for 'MR Plan Parameters' and 'Grid Resource'. Under 'MR Plan Parameters', there are 'Add', 'Modify', and 'Delete' buttons. At the bottom, there is a table with columns for 'Cycle', 'MR Date', and 'Previous MR Month'.

Select the itinerary attribute, eg NMD (non md)

A screenshot of the 'Itinerary Attribute' dropdown menu. The menu is open, showing a list of options: 'MD', 'NMD', 'Prepaid', and 'Gateway'. The 'NMD' option is highlighted.

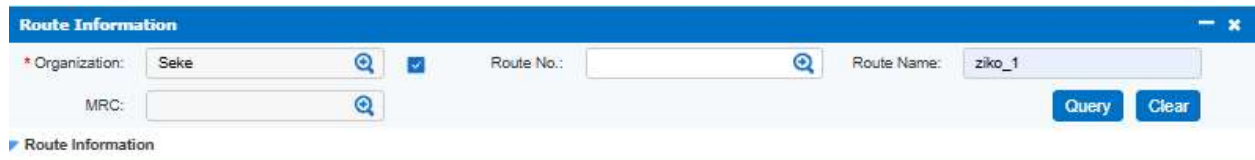

Fill in the itinerary name, Meter reading mode e.g. Manual MR

A screenshot of the 'Itinerary Maintenance' form. The 'Organization' field is set to 'Seke'. The 'Itinerary Name' field is set to 'ZIKO SHOPS'. The 'MR Mode' dropdown menu is open, showing options: 'Manual MR', 'MRD Meter Reading', 'AMI Meter Reading', and 'APP Meter Reading'. The 'Manual MR' option is highlighted. The 'Itinerary Attribute' field is set to 'NMD'. There are 'Save' and 'Clear' buttons. Below these fields, there are tabs for 'MR Plan Parameters' and 'Grid Resource'. Under 'MR Plan Parameters', there are 'Add', 'Modify', and 'Delete' buttons. At the bottom, there is a table with columns for 'Cycle', 'MR Date', and 'Previous MR Month'.

Click the blue icon on **Route No** to pick the MRC and link to the created route

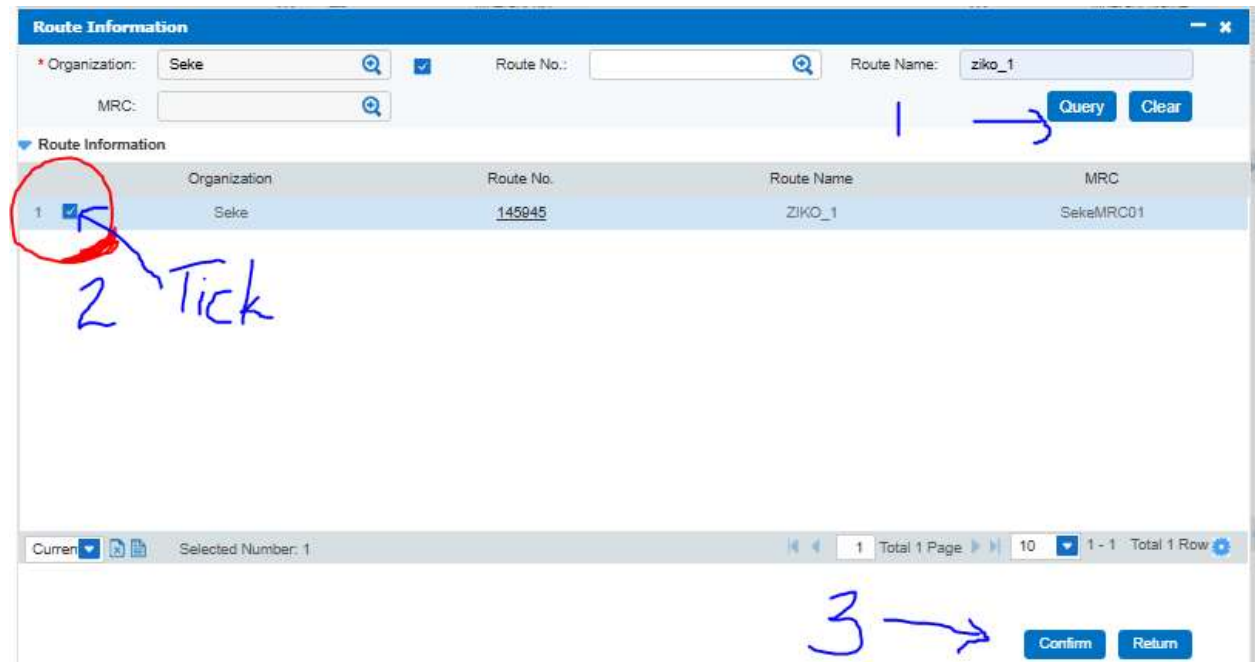

A screenshot of the 'Route Information' form. The 'Organization' field is set to 'ZETDC'. The 'Route No.' field is empty. The 'Route Name' field is empty. There are 'Query' and 'Clear' buttons. Below these fields, there is a table with columns for 'Organization' and 'MRC'. A 'Choose Organization' dialog box is open, showing a list of organizations: 'ZETDC', 'HARARE', 'Chitungwiza', and 'Seke'. The 'Seke' organization is highlighted.

Insert the created Route name and click query

The screenshot shows a web application window titled "Route Information". It contains several input fields: "Organization" with the value "Seke", "Route No." (empty), "Route Name" with the value "ziko_1", and "MRC" (empty). There are search icons (magnifying glasses) next to the "Organization", "Route No.", and "MRC" fields. A "Query" button and a "Clear" button are located to the right of the "Route Name" field. Below the form, there is a section header "Route Information" with a downward arrow icon.

Select the query result and confirm

This screenshot shows the same "Route Information" form, but now it displays a table of query results. The table has four columns: "Organization", "Route No.", "Route Name", and "MRC". The first row of data shows "Seke", "145945", "ZIKO_1", and "SekeMRC01". A red circle highlights the first row, and a blue arrow points to the checkbox in the first column of that row. A handwritten "2 Tick" is next to the checkbox. A blue arrow labeled "1" points from the "Query" button to the table. At the bottom of the form, there is a "Confirm" button and a "Return" button. A handwritten "3" with an arrow points to the "Confirm" button. The bottom status bar shows "Selected Number: 1", "Total 1 Page", "10", "1 - 1", and "Total 1 Row".

Close readings capturing window

In the event that all readings were not captured, split the itinerary so as to submit read points only and focus on the unread at a later stage.

Capturing Daily Demand Readings

Metering>>MR Mgmt>>MR Mgmt>>Daily MD MR Query

Insert account number , tick organization and query

Workdesk x Daily MD Manual MR x

* Organization: ZETDC Account No.: 562987813 Itinerary No.:

3 Query Clear

Input Demand 5

Account Info.	Organization	Account No.	Account Name	Itinerary No.	Itinerary Name	Route No.	MRC
1	Niketa	562987813	GRACE PRIVATE LIMITED	105904	BOOK-390 BELMONT/DONNINGT...	152410	RICHMOND HSE

Select query result and click "input demand"

Select the month and confirm

The screenshot shows a web form titled "Input Demand Data". It has a field for "MR Month:" with a calendar icon. Below it, a blue modal box displays "Dec 2025" with left and right navigation arrows and a "Confirm" button. The background form also shows "Account No." fields.

Capture demand readings

The screenshot shows a table titled "Input Demand Data" with columns: Account No., Account Name, Meter No., Reading Digits, Demand Date, Demand Data, MR Status, and Reference Meter Flag. It lists 8 rows of data for account 562867613, all with "Unread" status. A "Save" button is in the top right corner.

	Account No.	Account Name	Meter No.	Reading Digits	Demand Date	Demand Data	MR Status	Reference Meter Flag
